

Covid Statistics Report Tool

This system or tool provides COVID-19 reports with recorded deaths, dates, and other relevant statistics. The data is structured to support analysis, visualization, and research on the impact of the pandemic.

GitHub Repository link: <https://github.com/TerryB26/covid-reports>

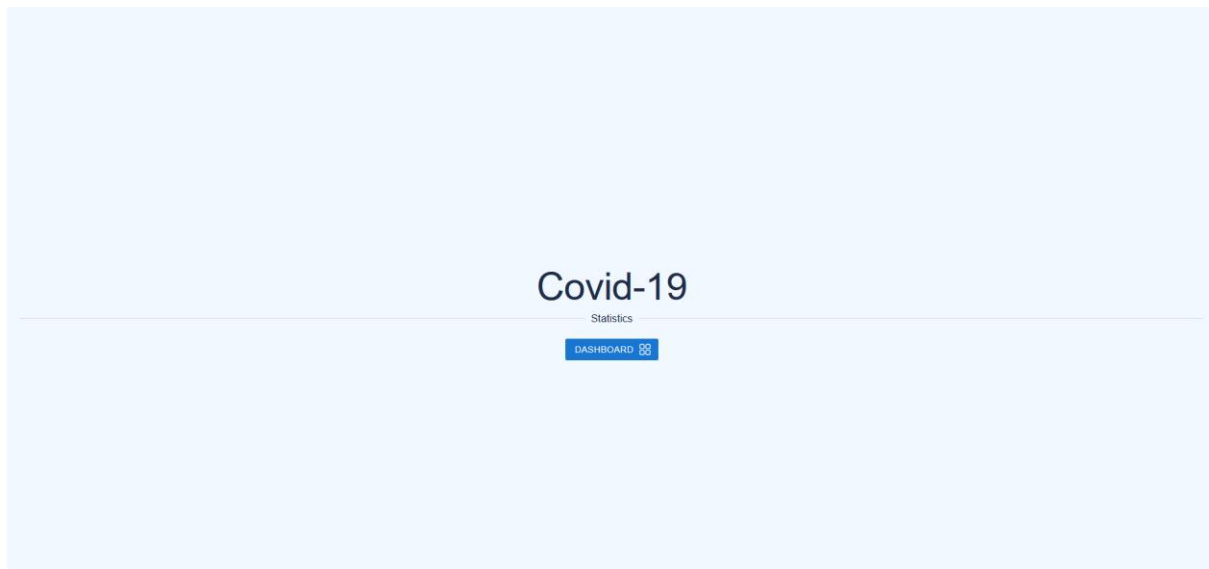

Features:

- Structured data for in-depth analysis
- Visualization tools for better insights
- Filters for searching and filtering based on the actual date, number or name.

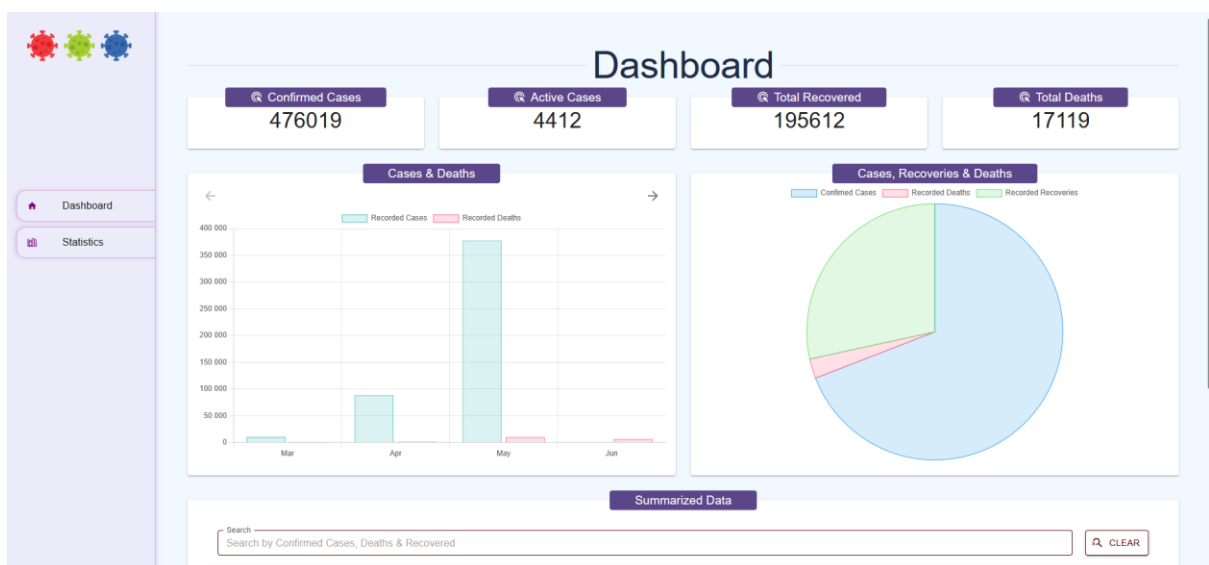

How to Clone and Run the App

1. Open your terminal or command prompt.
2. Navigate to the directory where you want to store the project.
3. Run the following command to clone the repository:
 - `git clone https://github.com/TerryB26/covid-reports.git`
4. Navigate into the project directory:
 - `cd covid-reports`
5. Switch the branch
 - `git checkout branch dev`
6. Install required packages
 - `npm install`
7. Run the application on the terminal
 - `npm run next-dev`
8. Opening the application
 - `http://localhost:2663/`

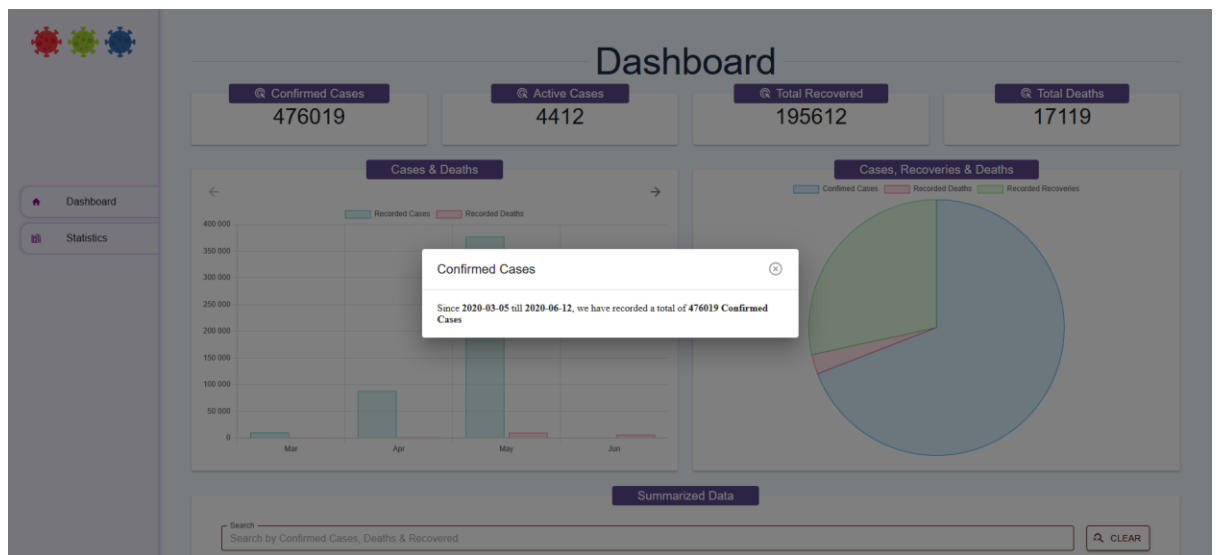

Screenshots

- This is the initial screen after running the app on your browser.
- Then navigate to Dashboard with the provided button

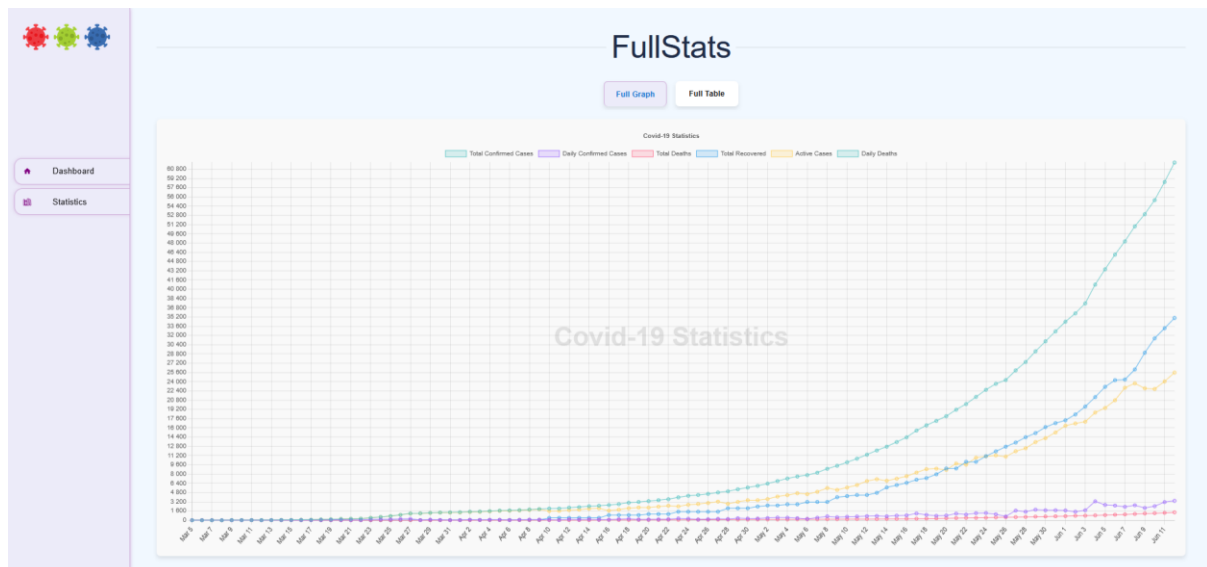

- On the dashboard we have summarized statistics on the cards with labels, the card with the mouse click icon open more information when clicked

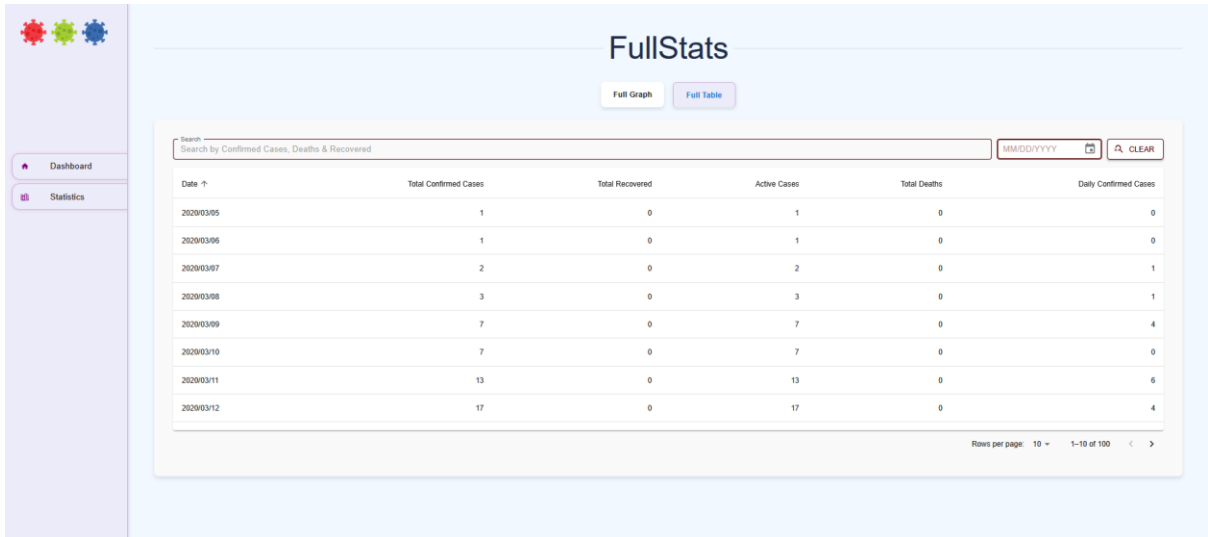

- You can also filter or search on the table to find the exact data you want.

Statistics Tab

- On the statistics page, we have 2 tabs which is “Full Graph” and “Full Table”

The image shows a web application titled "FullStats". On the left is a sidebar with a logo of three colored gears (red, green, blue) and two menu items: "Dashboard" (with a home icon) and "Statistics" (with a bar chart icon). The main content area has the title "FullStats" at the top, followed by two tabs: "Full Graph" and "Full Table", with "Full Table" being the active tab. Below the tabs is a search bar with the placeholder text "Search by Confirmed Cases, Deaths & Recovered". To the right of the search bar is a date filter set to "MM/DD/YYYY" with a calendar icon and a "CLEAR" button. The table below displays COVID-19 statistics for dates from 2020/03/05 to 2020/03/12. The columns are: Date (with a dropdown arrow), Total Confirmed Cases, Total Recovered, Active Cases, Total Deaths, and Daily Confirmed Cases. The data shows a steady increase in confirmed cases over the week, with no deaths reported. At the bottom right of the table area, there is a pagination control showing "Rows per page: 10" and "1-10 of 100" with navigation arrows.

Date ▾	Total Confirmed Cases	Total Recovered	Active Cases	Total Deaths	Daily Confirmed Cases
2020/03/05	1	0	1	0	0
2020/03/06	1	0	1	0	0
2020/03/07	2	0	2	0	1
2020/03/08	3	0	3	0	1
2020/03/09	7	0	7	0	4
2020/03/10	7	0	7	0	0
2020/03/11	13	0	13	0	6
2020/03/12	17	0	17	0	4

Rows per page: 10 1-10 of 100

- On the “Full Table” tab we have the data displayed on the table with full information you can also filter based on the date you want and also search for the statistics you want.
